

Privacy and Customer Security Policy

Valparaiso Broadband Communications Systems is committed to providing privacy protection in today's ever evolving world. The goal of this Policy is to assure customers that VBCS is serious about privacy. If you have any questions about our policy, please visit us or call (850)729-5404.

This Policy applies to the use of "individual customer information," meaning, information about specific customers. Generally, information that does not reveal a customer's identity is not considered to be individual customer information. As a specific example, "aggregated information," such as the number of individuals that access a website on a particular day, does not raise a privacy concern and is not covered under this policy.
